Baku State University

Bachelor of Science in Computer Science · GPA: 3.0 · IELTS: 7

Final Year GPA: 4.0 / 4.0

Sept. 2021 – June 2025

Baku, Azerbaijan

University of Messina

Data Science (ongoing)

Sept. 2025 – Present

Messina, Italy

EXPERIENCE

Caspian Solutions

React Developer / Web Designer

April 2025 – Present

Tampa, Florida (Remote)

- Developing high-converting landing pages using React, Next.js, Redux, modern ES6+ JavaScript, Lovable, WordPress, GoHighLevel and Wix.com
- Advanced Git version control in a collaborative team environment, with strong communication across remote stakeholders
- Light back-end work alongside front-end responsibilities, including exposure to Docker containerization for consistent dev environments
- Building and maintaining CRM interfaces and custom automations, with a focus on clean state management and reusable UI components
- Automating workflows with Make.com (automation manager)
- Main project: ApexSales CRM, built for hundreds of sales agents; also built base UIs for closersregion.com and caspiansol.com

PROJECTS

ApexSales CRM — UI (callapp.apexsales.ai)

Primary professional project: full CRM front-end for a sales team platform. Built in React/Next.js with ES6+ JavaScript, Redux for state management, and integrated REST APIs for real-time data and custom UI components. Completed 300+ tasks.

Portfolio (portfolio-beta-one-u38c49px0l.vercel.app/login)

Personal portfolio website showcasing projects, skills, and work experience.

AI Recipe Finder (github.com/AslanJafarov/recipefinderai)

Web app that generates personalized recipes via REST API integration and AI-driven suggestions.

IELTS Training Platform (github.com/AslanJafarov/ieltsai)

Digitalized IELTS exam tests for online practice — content management, timed exercises, and score tracking.

Admin Section — HR Hackathon

Built admin section for a Human Resource Management company at a Hackathon.

Custom Board Game

Designed and built an original physical board game — demonstrates creative problem-solving and systems thinking.
